Mrs. Reaves' Summer Reading List:

*Tales of a Fourth Grade Nothing* by Judy Blume &

*Turtle in Paradise* by Jennifer L. Holm

Dear Parents,

These are the two books that are **required reading for 4<sup>th</sup> grade**. Your child should have them read by the first week of school. But don't let them stop there...there are so many wonderful books out there! It's not a chore to read when it's something you enjoy. The local libraries have nice summer reading programs, and Barnes and Noble always lets you spend hours enjoying their selections. I might even see you there myself!

Please don't forget **MATH** this summer---practicing multiplication and division facts would be a great help. I always test the first week of school on multiplication facts. I can't stress enough the importance of knowing these. Fourth grade A Beka starts out with 2 digit multiplication. Students **must** know their facts coming in to fourth.

I hope you all enjoy your summer. Happy Reading!

Mrs. Reaves
